ANALYTICAL REPORT

RWA: FEE-WATERBURY-25-000153

Report Date: 10/15/2025

This report shall not be reproduced except in full, without the written approval of the laboratory. This report is incomplete unless all pages indicated in the pagination at the bottom of the page are included. This report contains results for the analysis tested as described on the Chain Of Custody (COC), as received by the laboratory.

The COC form has been scanned to accompany the analytical report and is an exact copy of the original.

If you are the client above and have any questions concerning this testing, please do not hesitate to contact RWA Client Services at (203) 401-6743 or (877) 894-5773. The contents of this report cannot be discussed with anyone other than the client listed above without their written consent.

A handwritten signature in black ink, appearing to read "Richard Sibley".

Case Narrative

General Comments:

See the Result Page section for the method references.

All QC met criteria unless otherwise noted in an Analysis Specific Comment below .

The samples were received at the approximate temperature and in accordance with the chain of custody unless otherwise noted.

All analytical pH measurements conducted in the lab are compensated to 25°C.

Alkalinity results less than 20 mg/L are below the Limit of Quantitation and are considered estimated results .

J = The reported result is below Minimum Reporting Level but greater than the Method Detection Limit. The reported result is an estimate.

E = Exceeds calibration range

ND = Non Detect

RL = Minimum Reporting Level
