Automatic Production Line for Olive Products –

The City of Waterbury has received federal stimulus funds specific for job creation. In a public process proposals were requested, received and reviewed by the Citizens Advisory Committee. Volubilis Foods, a local olive oil distributor, has been awarded a portion of those funds to create jobs related to the installation of an automatic production line for bottling of olive oil and related products. Bids for the acquisition of this equipment are required. The production line must include an oil and olive filling and capping mechanism including a bottle supplier and receiver, a suite for packaging multiple type containers, including inline liquid and whole olives (which will be stuffed by hand) affording the capability to maintain high production levels. All parts that contact consumable end products must be manufactured of stainless steel of food grade processing quality. Please contact the purchasing department listed below for a detailed list of the required equipment if you are interested in bidding on this production line.

SPECIFICATIONS MAY BE OBTAINED BY POTENTIAL BIDDERS BY APPLYING AT THE OFFICE OF THE PURCHASING DEPARTMENT.

THE CITY OF WATERBURY  
ROCCO F. ORSO  
DIRECTOR OF PURCHASES  
236 GRAND STREET  
WATERBURY, CT 06702
